LOW-FIDELITY WIREFRAMES

WIREFRAMES

Two-dimensional illustration of a page’s interface

Visualization tool for presenting layout

The content, navigation, headers, footers etc.

Focuses on space allocation, prioritization of content, functionality and intended behaviours

WHY WE USE THEM

Minimal skill requirements

Allow for quick, iterative designs

Focus on how site works, information architecture, hierarchy, structure

Not “look and feel”

Gets early client buy-in

FIDELITY: COST-BENEFIT ANALYSIS

LOW-FIDELITY

Super fast and easy to produce

Cheap

Pen and paper sketches

Not life size

Fit 4 to 5 screens per page

Show proportions of elements relative to each other

e.g. this heading is bigger than that heading, primary content block is twice as big as secondary content, etc.

Black and white only

Show as much detail as possible, while moving quickly

WHAT NOT TO INCLUDE

Measurements

Colour

Font styles

Imagery
(photos, illustrations and detailed icons)

Branding
